FLUID MILK AND CREAM REPORT
JULY 1961

July 18, 1961

SUMMARY

Milk for fluid use prices in about 160 markets in the United States were higher at both producer and consumer levels, the Crop Reporting Board reports. Prices of fluid milk paid by dealers were higher in 46 markets, 1 in about every 3. Fluid prices were lower in only 2 markets. Prices of milk in single quarts delivered to homes were higher in 27 markets with no decreases reported. Store quart prices were higher in 23 markets and lower in 5. Half-gallons sold in stores showed gains in 27 markets but were lower in 5. Gallon jug prices increased in 11 markets but were lower in 1. Dealers' buying prices are not currently determined in a number of markets but will be reported next month.

Dealers' buying prices for fluid use milk averaged \$5.36 per hundred-weight in early July -- up 20 cents from a month earlier. This price was 2 cents more than July last year and 13 cents above the 1955-59 average. July average prices were higher than June in 7 of the 9 regions. Compared with the previous year, July averages were higher in 5 areas but lower in 4. Increases ranged from 1 cent on the Pacific Coast to a 19-cent gain in the East North Central Region. Decreases in regional average prices were: Middle Atlantic, 9 cents; Mountain, 5 cents; South Atlantic, 3 cents; and New England, 1 cent.

Home delivery single quart milk prices in 25 major cities increased three-tenths of a cent from June to an average of 26.6 cents in July. The increases were as follows: one-half cent, Cleveland; 1 cent, New York City and Philadelphia; $1\frac{1}{2}$ cents, Boston and Hartford; and 2 cents, Portland, Ore.

Whole milk sales (preliminary) on an average daily basis for 66 Federal Order and 6 State marketing areas during May were 1 percent above May a year ago. April skim milk sales in 71 of these areas were 5 percent higher than in April 1960. Milk and cream mixture (half-and-half) sales in 66 of these areas were 4 percent less than a year earlier. Sales of fluid cream (average daily) during April were 6 percent under April 1960. Total fluid product sales (April) were 3 percent below April a year ago. Average daily receipts per producer during May in 75 Federal Order and 6 State marketing areas were 4 percent greater than May last year. Receipts per producer were 7 percent above the previous year.

PRICES IN FLUID MILK MARKETS, JULY 1961

Prices of milk for fluid use in New England in early July averaged \$6.02 per hundredweight -- up 66 cents from June, but 1 cent below a year ago. Class I prices in Maine markets were reported up 88 cents per hundredweight and home delivery and store prices were raised about 2 cents per quart. Dealers' prices were up 66 cents per hundredweight in the New Hampshire, Massachusetts, Rhode Island, and Connecticut markets reporting. In these markets, home delivery and store single quarts were 1 to 1½ cents higher except Boston, which was 2 cents above June. Half-gallons were 3 cents higher in most of these areas with gallon jug prices 3 to 8 cents higher in most Massachusetts markets and 6 to 10 cents higher in Rhode Island. Class I prices are not currently determined in Vermont, but home delivery and store prices of single quarts were 1 cent higher in Bellows Falls and Burlington. Half-gallons sold out of stores were 4 cents higher in Bellow Falls, and up 2 cents in Burlington.

Class I milk prices in the Middle Atlantic States averaged \$5.85 per hundredweight in early July. This was 31 cents above a month earlier but 9 cents below July last year. In Buffalo, N. Y., dealers' buying prices and most selling prices were unchanged but half-gallons out of stores were 1 cent lower. Class I milk was up 38 cents per hundredweight in the New York-New Jersey Federal Order area. Home and store prices were reported unchanged in Albany, Schenectady, and Syracuse. Sales of single quarts in stores were 1 cent higher but half-gallons were as much as 2 cents lower in Binghamton. In New York City, single quarts delivered to homes were 1 cent higher, store quart sales were 1½ cents higher and half-gallons were 2 cents higher. Single quarts at homes and stores were one-half cent lower in Northeastern New Jersey with no apparent change in half-gallon and gallon prices. A 40-cent increase in dealers' buying prices was reported at Philadelphia, Pa., with a 1-cent increase in home and store prices.

The average price of milk bought for fluid use in the East North Central States in early July was \$4.60 per hundredweight. This was a gain of 13 cents from early June, an increase of 19 cents per hundredweight from a year ago. Class I prices at Cincinnati, Ohio, were unchanged with mixed changes at consumer levels. Columbus, Ohio, had a 12-cent increase in Class I prices with no change in retail prices. Class I prices were up at South Bend, Ind., with no change in consumers prices. At Alton, Ill., Class I prices moved up 15 cents and single quarts delivered to homes were up 1 cent. Class I prices in the greater Chicago area and related markets were 29 cents higher, with consumer prices generally unchanged. Other Illinois markets showed mixed changes. Class I prices are not currently determined in Grand Rapids, Mich., but a milk price war brought some home delivery prices 1 cent lower and half-gallon prices down from 2 to 4 cents. Prices were somewhat higher in several smaller Wisconsin markets.

For the West North Central area, fluid use milk prices averaged \$4.30 per hundredweight in early July. This was 12 cents more than the previous month and 3 cents over the same month last year. In Duluth, Minn., Class I prices were up 33 cents per hundredweight; Minneapolis and St. Paul prices each were up 19 cents. Resale prices in these markets were unchanged from a month earlier. Des Moines and Fort Dodge, Iowa, markets each had Class I price increases of 13 cents per

hundredweight with consumer prices remaining steady. Dealer buying prices at St. Louis were up 15 cents with consumer prices the same as June. Some upward adjustment was made in Class I prices at Springfield, Mo., but store milk was 1 cent lower. Store quarts in Lincoln, Nebr., were 1 cent lower. At Wichita, Kans., Class I prices edged downward with some increase in home and store prices.

Class I milk purchased by dealers in the South Atlantic States averaged \$6.03 per hundredweight in early July -- up 12 cents from a month earlier but 3 cents below July last year. Dealers' buying prices of milk were 40 cents higher at Wilmington, Del., but the only other change was a 1-cent increase in quarts sold on routes. At Baltimore, Md., dealers paid 45 cents more per hundredweight for Class I milk, but consumer prices were steady to 1 cent higher on half-gallons sold in stores. The Washington, D. C. Class I prices was unchanged but half-gallons and gallons sold out of stores were up 1 cent per quart.

In the East South Central region, Class I milk prices averaged \$5.25 per hundredweight in early July -- the same as a month earlier but 5 cents above July 1960. In Louisville, Ky., producer prices and single quarts sold to homes and in stores were unchanged, half-gallons sold in some stores were $5\frac{1}{2}$ cents lower. Class I prices were up 23 cents at Paducah, Ky. Store prices on single quarts and half-gallons were reduced 1 cent. In Memphis, Tenn., the price war continued on retail quarts and half-gallons in stores. Some stores were selling their units from 1 to 2 cents lower than in June. Class I prices were unchanged.

Class I milk prices in the West South Central area averaged \$5.49 per hundredweight in July -- up 15 cents from June and 6 cents above July 1960. At Fort Smith, Ark., Class I prices were up 33 cents per hundredweight, but consumer prices remained unchanged. A 1-cent increase in half-gallons at stores was the only price change reported at Little Rock, Ark. Dealers' buying prices went up 20 cents per hundredweight on July 1 at New Orleans. This was preceded by increases in consumer prices on June 5. At that time, store gallon jug prices were upped 6 to 8 cents; half-gallons, 1 to 3 cents; and quarts, 1 to 3 cents. Route sales of single quarts moved up 3 cents. In Austin, Tex., the Class I price was 26 cents higher in July, but consumer prices remained steady.

Fluid milk prices in the Mountain region averaged \$5.42 per hundredweight in early July. This was 4 cents less than June and 5 cents below July last year. In Colorado Springs and Pueblo, Colo., Class I prices were unchanged. Home delivery prices were unchanged but store prices showed varying increases by units in both markets. Albuquerque, N. M., Class I prices and most consumer prices were unchanged in early July but half-gallon prices dropped 6 cents. In Phoenix and Tucson, Ariz., Class I prices were reduced 17 cents with consumer prices remaining steady.

Fluid milk dealers on the Pacific Coast in early July paid an average of \$5.20 per hundredweight for Class I milk. This was 6 cents more than June and 1 cent more than in July last year. Everett, Wash., Class I prices were 7 cents lower. The only change in resale prices reported in this market was 3 cents per half-gallons at stores. At Portland and Salem, Ore., dealers' buying prices were up 94 cents per hundredweight. Single quarts sold on routes were 2 cents higher and store quarts were 1 to 2 cents above June. Half-gallons were 3 to 4 cents higher. In the Los Angeles market, where Class I prices were unchanged, home delivery purchases were 1 cent higher and store purchases were one-half cent per quart higher for all containers purchased in stores.

Omaha, Nebr.....	21.4	23-24	24	24	25 cities average..	26.3	26.2	*26.4	26.6

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

* Revised.

S- From State sources. D.R.- Payment in direct ratio to milkfat. PA- Producers' association prices.
a. Federal Order markets unless otherwise noted. b. Prices paid to all or the major group of producers in the market for milk used for fluid consumption. For Federal markets, Class I prices including negotiated premiums. For minimum Class I price, see Table 1(a) for respective month. d. Prices paid to all or the major group of producers in the market for all pooled milk. Federal market prices include general premiums negotiated by principal producers' associations. Bulk tank (see Table 4) or other special premiums not included unless indicated. e. PMCC Area I price for milk produced in Pennsylvania. f. Individual handler pool. Weighted average of handlers' prices. g. Negotiated prices paid members of principal producers' associations. h. Gallon jug milk \$ 6.125 D. R. at basic test. j. Association average blend price for the Omaha-Lincoln-Council Bluffs and Platte Valley markets together. k. Average of blend prices paid by all plants in the State. m. Includes special premium n. \$5.48 - Shreveport; \$6.34 - Ruston, Monroe & Bastrop. p. Negotiated at basic test: May Class I \$5.45, blend \$4.42 at Oklahoma City; Class I \$5.54, blend \$4.22 at Tulsa; Feb. blend \$5.07; Mar. blend \$4.88; Apr. blend \$4.69 at Chattanooga; Apr. blend \$4.78 at Knoxville. q. The following subtractions have been made for fall production funds: Connecticut 15¢, Columbus 35¢, Dayton-Spgfd. 35¢, Cincinnati 35¢, Fort Wayne 35¢, Indianapolis 33¢, Sub. St. Louis 10¢, Sioux City 31¢, Omaha-Lin.-C.B. 35¢, Platte Valley 38¢, St. Louis 10¢, Ozarks 10¢, Southwest Kansas 50¢, Lou.-Lex. 42¢. r. (Lima) s. Adjusted uniform price. t. Mississippi Milk Commission minimum price.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, APRIL - MAY 1961

May whole milk sales - 1 percent above a year ago

Preliminary whole milk sales (average daily basis) in 66 Federal Order and 6 State marketing areas, at 78.7 million pounds during May, were 3 percent above April and 1 percent above the 77.8 million pounds of May last year. The interpreter of these figures should take note that both May 1960 and April 1961 contained 5 Sundays, but April 1960 and May 1961 each had 4. Most stores and many home delivery routes do not make Sunday sales. January through May cumulative sales averaged 80.1 million pounds compared with 80.7 million pounds a year earlier. In April, the fat test of whole milk sold in 65 of the 72 markets averaged 3.56 percent compared with 3.57 percent last April.

Skim sales in April - 5 percent above 1960

April skim milk sales in 65 Federal Order and 6 State markets were 2 percent below March, but 5 percent above April 1960 on an average daily basis. Of the 45 market groupings in the table, the sales of skim milk items in 34 were higher than a year earlier with 13 of these groups more than 10 percent above April 1960. In one area, sales were about the same as last year, but in 10 groups skim item deliveries were lower. Cumulative sales for the period January through April 1961 were 9 percent above the same period last year. The fat test of skim milk sold in 65 of these marketing areas averaged 1.10 percent in April compared with 1.04 percent in April last year.

Sales of half-and-half - 4 percent below last year

Milk and cream mixtures (half-and-half) sales during April in 66 marketing areas were 6 percent below March and 4 percent below April 1960. Sales of half-and-half in the Chicago and California marketing areas, representing more than two-fifths of the quantity reported, showed a March to April decline of 3 percent and were down 7 percent from the corresponding period last year. For the remaining 64 areas, sales were down 3 percent from March to April and were 2 percent below April a year ago. Sales for the year through April (cumulative) on an average daily basis were 1 percent below the corresponding period last year.

Fluid cream sales - 6 percent below April a year ago

Sales of cream items in April for 67 marketing areas were 1 percent below March and 6 percent below April 1960. Of the 42 area groups in the table, sales in 31 were below a year earlier. Those above a year ago were Ozarks, 29 percent; 4 Iowa markets, 13 percent; Central Arkansas, 10 percent; North Texas, 4 percent; Central Arizona and Oklahoma Metropolitan, each 2 percent; and North Carolina, 1 percent. Sales in Chicago, Southern Michigan and California combined, representing about one-third of the 67 marketing area sales, were 2 percent above March, but 6 percent below April last year. Through the first 4 months of 1961, cumulative sales were 3 percent below the respective period in 1960.

(Continued on page 27)

a. Quantities include receipts of milk from producers by handlers regulated in the respective marketing areas; data are revised for earliest date shown, preliminary for others. See below for markets combined.
b. Federal totals less receipts from New Jersey producers as reported by the Office of Milk Industry.
c. Data from State sources. d. Data comprise plant receipts of Grade A milk from producers in the State.

Compiled from reports of Market Administrators and State milk control agencies.

MARKET COMBINATIONS IN SALES AND RECEIPTS TABLES

The following marketing areas have been combined in the sales and receipts tables of this report: Northern Ohio - North Central, Northeastern and Toledo; other Ohio - Cincinnati, Columbus and Dayton-Springfield; Indiana - Fort Wayne and South Bend-LaPorte-Elkhart; Iowa - Cedar Rapids-Iowa City, Des Moines, North Central and Sioux City; South Dakota - Black Hills and Sioux Falls-Mitchell; Kansas - Neosho Valley, Southwest and Wichita; Tennessee - Chattanooga, Knoxville, Memphis and Nashville; Mississippi - Delta, Central and Gulf; Louisiana - New Orleans and Northern; Texas - Austin-Waco, Corpus Christi, Central West, San Antonio and Panhandle; and Colorado - Colorado Springs-Pueblo and Western.

(Continued from page 20)

Total fluid sales - 3 percent below last year

Total fluid product sales in April (average daily basis) in 64 Federal Order and 6 State marketing areas were 3 percent below both March this year and April last year. Cumulative sales through April were about 1 percent below the corresponding period a year earlier. The milkfat test of sales of all products in these areas averaged 3.68 percent compared with 3.67 percent in March and 3.71 percent in April 1960.

May producer receipts up 4 percent from 1960

In 75 Federal Order and 6 State marketing areas, producer receipts for May (average daily basis) were 5 percent above April, and 4 percent above May 1960. Per producer, receipts averaged 792 pounds per day during May, 7 percent above the month last year. In May, the fat test of receipts averaged 3.66 percent compared with 3.67 percent during May a year ago.

United States milk production during June - 2 percent above a year ago

Estimated total milk production during June was 11.9 billion pounds - 2 percent above the estimated production during June last year, but 2 percent less than the 1950-59 average for the month. Cumulative production for the first half of 1961 totaled 65.4 billion pounds, nearly 1 percent above the same period in 1960. Production during June was equivalent to 2.17 pounds per person, per day, about equal to a year earlier, but 12 percent below the 10-year June average.

2 FLUID MILK AND CREAM REPORT

AUGUST 1961

SUMMARY

Higher prices were in effect for milk for fluid use at both producer and consumer levels in about 160 marketing areas in early August, the Crop Reporting Board reports. Prices paid by dealers were higher in 21 markets or 1 in about every 8. Only 1 market reported lower prices. Single quarts delivered to homes were higher in 7 markets and lower in 5. Half-gallon store prices increased in 10 areas but were reduced in 14. Prices of gallon jug milk were higher in 4 markets but lower in 1. Class I milk prices are not currently determined in a number of markets, but will be reported next month.

Prices paid by dealers for fluid use milk averaged \$5.43 per hundredweight in early August -- 7 cents more than July but 4 cents less than last August. The current price is 8 cents above the 1955-59 average for August. Average prices in the New England, West South Central, and Pacific regions were unchanged from July. The Mountain region average declined 3 cents while gains in other regions ranged from 1 to 16 cents per hundredweight. Compared with last year, regional decreases were 23 cents in New England, 18 cents in the Middle Atlantic, and 9 cents in the Mountain States. Significant increases were 14 cents per hundredweight in the East North Central Region and 6 cents in the West North Central. Small changes in the remaining region averages were reported.

The single quart price of milk delivered to homes in 25 major cities averaged 26.7 cents in early August. This price equaled that of a month earlier, but was three-tenths of a cent above August of last year. Compared with the 5-year average, the current 25-city single quart price is 2.1 cents or 11 percent higher. Single quart increases of 1 cent in Pittsburgh and one-half cent in New York City were reported. Decreases of one-fourth cent per quart in Philadelphia and 1 cent per quart in Kansas City occurred.

Preliminary June whole milk sales on an average daily basis in 66 Federal Order and 6 State marketing areas were 1 percent below the corresponding month last year. In 71 marketing areas, skim milk sales in May were 11 percent above a year earlier. Sales of milk and cream mixtures (half-and-half) in 66 Federal and 6 State marketing areas during May were 2 percent over May 1960. Compared with a year ago, May sales of fluid cream in 67 marketing areas were down 1 percent. Total fluid product sales in 70 markets during May were 3 percent above May of last year. In June, producer receipts in 75 Federal Order and 6 State marketing areas were 1 percent below a month earlier but 9 percent above a year ago. Receipts per producer were 12 percent above June last year.

PRICES IN FLUID MILK MARKETS, AUGUST 1961

Dealers' buying prices in New England in early August averaged \$6.02 per hundredweight, unchanged from July but 23 cents under August last year. At Bellows Falls, Vermont, single quarts delivered to homes were up 1 cent and store quarts and half-gallons were each up 2 cents. Producer prices in this market are not currently determined. In some stores at Springfield, Massachusetts half-gallons sold from 1 to 7 cents higher; gallon jugs were quoted from 4 to 6 cents higher. Class I prices in this market were the same as in July. Rhode Island markets were unchanged for prices of Class I milk and single quarts at homes and stores. However, the store prices of half-gallons were down 6 cents and gallons were off 16 cents.

Class I prices of milk purchased by dealers in the Middle Atlantic region averaged \$6.01 per hundredweight in early August. This was an increase of 16 cents from July, but 18 cents below August of last year. Dealers' buying prices were up 20 cents per hundredweight in the New York-New Jersey area with store and route prices generally remaining unchanged except in New York City where retail prices of all items were $\frac{1}{2}$ cent per quart higher. At Pittsburgh, Pennsylvania, where the Class I milk purchased by dealers was 46 cents per hundredweight higher, home and store prices moved up 1 cent per quart.

Prices of Class I milk to dealers in the East North Central region averaged \$4.68 per hundredweight in early August. Last month the average was \$4.59 per hundredweight and in August 1960, \$4.54. In Ohio, Class I prices to dealers at Columbus were up 18 cents per hundredweight with home delivery and store prices practically unchanged from July. In other areas of the State, the Class I prices reported were steady and home and store prices reflected adjustment to competitive situations. A 22-cent increase in Class I milk prices was reported at Evansville, Indiana. Single quart prices were steady but some stores were selling half-gallons 2 cents lower. Dealers' buying prices for Class I milk at both Alton and Rock Island, Illinois were upped 23 cents per hundredweight in August with consumer prices steady. At Peoria, Illinois, some stores were selling half-gallons 2 cents lower than July with prices on other retail units unchanged. Producer prices in this market are not currently determined. Producer prices at Springfield, Illinois were unchanged but consumer prices were unsettled in August with half-gallons sold out of stores as much as 6 cents lower. Generally, steady milk prices prevailed throughout Michigan in early August. However, store half-gallons at Detroit showed mixed changes and at Lansing they were 5 cents higher. Class I prices were 23 cents per hundredweight higher at Beloit, Wisconsin, with no apparent change in consumer prices. At Green Bay, Wisconsin, Class I prices were also 23 cents per hundredweight above July but store-half-gallons were 3 to $3\frac{1}{2}$ cents per unit lower.

Prices of milk for fluid use in the West North Central region averaged \$4.39 per hundredweight in early August -- up 12 cents from the preceding month and 6 cents above the same month last year. Dealers at Des Moines, Iowa, paid 23 cents more per hundredweight for Class I milk, but single quarts delivered to homes were $\frac{1}{2}$ cent lower. Class I prices were also 23 cents per hundredweight higher at Ft. Dodge, Iowa, but consumer prices were unchanged. Although Class I milk prices at Sioux City, Iowa were unchanged,

single quarts delivered to homes were 1 cent higher and some stores sold half-gallons 2 cents lower. Class I milk prices at Kansas City, Missouri moved up 12 cents per hundredweight in August. Single quarts on routes and in stores were 1 cent lower while half-gallons were 2 cents lower. St. Louis, Missouri Class I prices increased 23 cents per hundredweight from July but retail prices held steady. At Springfield, Missouri Class I milk was also 23 cents per hundredweight higher in August. Although prices remained steady on routes and for some units in stores, a price war on store half-gallons brought prices down 3 to 4 cents per unit. In the Greater Kansas City area, dealers paid 12 cents more per hundredweight for Class I milk in August. Although some dealers were charging 2 cents more for quarts sold on routes, store quarts were 1 cent lower, half-gallons 1 to 5 cents lower, and gallons were in some instances 6 cents lower.

In the South Atlantic, Class I milk prices averaged \$6.04 per hundredweight in early August. Although this was 1 cent above July, it was 4 cents below the same month last year. Dealers' buying prices were unchanged at Wilmington, Delaware. Consumer prices were 1 cent lower on milk delivered to homes but store prices were unchanged. Class I prices were unchanged at Charleston, W. Va. However, consumers purchased store quarts for $\frac{1}{2}$ cent; half-gallons 2 cents and gallons 1 to 4 cents less. At Huntington, W. Va. a 2-cent increase in home delivery sales was the only price change reported. Class I milk at Wheeling, West Virginia was 46 cents per hundredweight higher but reported consumer prices were unchanged.

Fluid milk purchased by dealers in the East South Central region at an average cost of \$5.26 per hundredweight in early August was 1 cent above the previous month and 3 cents above August of last year. Class I prices in Paducah, Kentucky were 33 cents more per hundredweight in August than July. Consumers' prices for single quarts delivered to homes were 1 cent higher and store quarts and half-gallons were 1 to 2 cents higher.

Prices of Class I milk in the West South Central region averaged \$5.49 in August - unchanged from a month earlier, but 2 cents below the August average in 1960. Class I and home delivery prices at Ft. Smith, Arkansas, were virtually unchanged. Store quarts sold for 1 cent less and half-gallons were reduced in some instances as much as 18 cents. In Little Rock, Arkansas, all prices except single quarts out of stores were unchanged. Quarts were 1 cent higher.

In August, Class I prices averaged \$5.39 per hundredweight in the Mountain states -- down 3 cents from a month earlier and 9 cents below the same month last year. In Colorado Springs, Colo., the only price change reported was in store gallons which were slightly lower in August. At Denver, Colorado, store half-gallon prices were 1 cent higher but prices of other units and for Class I milk were unchanged. Milk purchased by dealers in Albuquerque, New Mexico was 50 cents per hundredweight lower in August. Single quarts at homes and stores were 5 cents lower and store half-gallons were 10 cents lower.

On the Pacific Coast the price of Class I milk in early August averaged \$5.20 per hundredweight -- unchanged from July, but 1 cent above the August 1960 average. Prices at all levels were steady and only small adjustments were reported.

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

* Revised.

Mississippi Milk Commission minimum price.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, MAY - JUNE 1961

Whole milk sales down 1 percent from June last year

Preliminary June whole milk sales (average daily basis) in 66 Federal Order and 6 State marketing areas, at 75.3 million pounds, were 1 percent lower than the 75.9 million pounds reported for this group of markets a year earlier. Cumulatively, the January through June total was 1 percent below the corresponding period last year. Sales declined 4 percent from May to June this year. The average test of whole milk sales in May was 3.55 percent, the same as in May a year ago.

May average daily sales of skim milk up 11 percent

Skim milk sales (average daily basis) in 71 marketing areas during May were up 1 percent from April and were 11 percent above a year earlier. The Niagara Frontier and the combined markets of Clarksburg and Wheeling, West Virginia and Louisville and Paducah, Kentucky and Oklahoma Metropolitan were the only areas reporting sales below a year earlier. In 9 market groupings, sales were 20 percent or more higher than last year. The January to May cumulative sales were 9 percent above the corresponding period a year ago.

Sales of "half-and-half" during May increased 2 percent

In 66 Federal Order and 6 State marketing areas, May sales of milk and cream mixtures (half-and-half) were up 2 percent from both April 1961 and May last year. Sales in Chicago and California, which together account for about two-fifths of total sales of the group, remained unchanged. Cumulative sales January through May for these 72 areas were about equal to last year. However, in Chicago and California cumulative sales in 1961 were down 4 and 3 percent, respectively, when compared with the same period of 1960.

Fluid cream sales down 1 percent in May

Average daily sales of cream items in May were up 4 percent from April but compared with a year earlier were down 1 percent in 67 marketing areas. Cumulatively, the January through May daily average was 3 percent below that period last year.

May total fluid milk sales 3 percent above last year

On an average daily basis, total fluid product sales in May were unchanged from a month earlier but were 3 percent higher than in May last year in 70 of these marketing areas. Cumulative sales January through May were about equal to those of a year earlier. The milkfat content of fluid product sales for this group of markets averaged 3.68 percent in May compared with 3.71 percent in May 1960.

(Continued on page 27)

MARKET COMBINATIONS IN SALES AND RECEIPTS TABLES

The following marketing areas have been combined in the sales and receipts tables of this report: Northern Ohio - North Central, Northeastern and Toledo; other Ohio - Cincinnati, Columbus and Dayton-Springfield; Indiana - Fort Wayne and South Bend-LaPorte-Elkhart; Iowa - Cedar Rapids-Iowa City, Des Moines, North Central and Sioux City; South Dakota - Black Hills and Sioux Falls-Mitchell; Kansas - Neosho Valley, Southwest and Wichita; Tennessee - Chattanooga, Knoxville, Memphis and Nashville; Mississippi - Delta, Central and Gulf; Louisiana - New Orleans and Northern; Texas - Austin-Waco, Corpus Christi, Central West, San Antonio and Panhandle; and Colorado - Colorado Springs-Pueblo and Western.

(Continued from page 20)

Producer receipts up 9 percent in June

June producer receipts (average daily basis) in 75 Federal Order and 6 State marketing areas were 1 percent below those in May but 9 percent above June a year ago. Receipts averaged 785 pounds per day per producer in June compared with 792 pounds in May and 704 pounds in June 1960. Milkfat test of producer receipts averaged 3.60 percent in June compared with 3.66 percent in May and 3.62 percent in June last year.

Estimated July milk production up 2.5 percent

Milk production in the United States during July, estimated at 11.0 billion pounds, was 2.5 percent more than the output of July 1960, but 2 percent less than the 1950-59 average for the month. From the revised June estimate, the July production was down 8 percent, the same seasonal decline as in 1960. Relative to population, July milk production was equivalent to 1.94 pounds per person daily compared with 1.93 pounds in July last year. The January through July cumulative production totaled 76.5 billion pounds - up 1 percent from the same period of 1960.

FLUID MILK AND CREAM REPORT
SEPTEMBER 1961

SUMMARY

Prices of milk for fluid consumption in about 160 markets were steady to slightly higher at both producer and consumer levels in early September, the Crop Reporting Board reports. Fluid use milk prices increased in 21 markets or about 1 in 8. Single quarts delivered to homes were higher in 21 markets but lower in 3. Store quart prices advanced in 21 markets but declined in 7. In stores, half-gallons were higher in 22 markets and lower in 8; gallons were up in 11 markets and down in 2.

Fluid use prices paid by dealers to producers in about 160 markets in early September averaged \$5.52 per hundredweight -- up 8 cents from the previous month but 6 cents below a year earlier. Compared with the 1955-59 average for the month, September prices were 4 cents higher. Averages were higher than August in 5 of the 9 regions and these ranged from 1 cent in the West South Central to 24 cents in the Pacific States. Other increases were: 13 cents, Middle Atlantic; 8 cents, East South Central; and 5 cents, East North Central. Averages were unchanged from August in the New England, West North Central and South Atlantic Regions, but were 3 cents lower in the Mountain States. Compared with September last year, averages were lower in 5 areas, about the same in 1, but higher in 3.

Single quart prices delivered to homes in 25 major cities in early September averaged 26.8 cents per quart. This was one-tenth of a cent above August and two-tenths of a cent above September 1960. The average this month was 2.0 cents above the September 1955-59 average. One-half cent increases for this unit were reported for New York City, Pittsburgh, and Los Angeles. An increase of a cent occurred in San Francisco. No other changes were reported.

July whole milk sales on an average daily basis (preliminary) in 66 Federal Order and 6 State marketing areas were 1 percent less than in July 1960. Sales of skim milk in 71 of these areas in June were 9 percent above the same month last year. Milk and cream mixture (half-and-half) sales in 66 marketing areas during June were down 1 percent from the same period a year ago. In 67 marketing areas during June, fluid cream sales were 2 percent below June of last year. Total fluid product sales in 70 markets on an average daily basis were unchanged from a year earlier. Receipts from producers in 81 marketing areas in July were 8 percent above the same month last year.

PRICES IN FLUID MILK MARKETS, SEPTEMBER 1961

Dealers' buying prices for Class I milk in New England in early September averaged \$6.02 per hundredweight. This was unchanged from August but 42 cents below September last year. Consumer prices were generally unchanged from the previous month. However, in a test of milk control laws in Rhode Island, gallon jugs were selling generally 9 cents below last month. Half-gallons were also slightly lower. The price pattern was described as confused. In nearby Worcester, Mass., half-gallon and gallon prices were reported selling for higher prices than in August.

Early September prices for fluid use milk averaged \$6.14 per hundredweight in the Middle Atlantic States -- 13 cents more than August and 20 cents less than September a year ago. Dealers' buying prices increased 18 cents per hundredweight in the New York-New Jersey area. In New York City, quarts delivered to homes and purchased from stores were $\frac{1}{2}$ cent higher. Store half-gallons advanced 1 cent and gallons 2 cents. Quarts at homes in Northeastern New Jersey were $\frac{1}{2}$ cent higher and at stores, 1 cent higher. Half-gallon and gallons were unchanged. In Albany, home delivered single quarts were unchanged, but some stores were charging 1 cent more for single quarts and 2 cents more for half-gallons. At Schenectady, single quarts were 1 cent higher. Half-gallons were 2 cents higher in some establishments and gallon prices were up 4 to 8 cents. Class I milk advanced 40 cents per hundredweight and home and store prices rose 1 cent per quart above August in the Pennsylvania markets reporting.

Fluid use milk prices to producers in the East North Central region in early September averaged \$4.73 per hundredweight - 5 cents above August and 12 cents above the same month last year. Some consumer prices at Cleveland, Ohio, were up slightly. Producer prices in this market are not currently determined. At Columbus, Ohio, quarts sold at homes were up $\frac{1}{2}$ cent while some stores sold quarts and half-gallons 1 cent higher. Gallon jug milk advanced 3 cents. Gary, Ind., reported some store gallons selling 8 cents above August with other prices unchanged. In Illinois, Peoria reported increases in store half-gallons and gallons, and Springfield reported a store half-gallon price rise. Milk for fluid use in Peoria is not priced currently but Springfield milk was 15 cents per hundredweight higher. At Superior, Wisconsin, store prices of single quarts were 2 to 4 cents lower and half-gallons were down 4 to 7 cents with virtually no change in Class I prices.

Dealers in the West North Central States in early September paid an average of \$4.39 per hundredweight for fluid use milk. This price was unchanged from August, but was 4 cents above September of last year. Duluth, Minn., store prices on single quarts were reduced 3 to 4 cents and half-gallons 9 to 12 cents. Other prices showed little or no change. At Topeka, Kans., Class I prices were unchanged but quarts and half-gallons at homes and stores were from 1 to 2 cents per quart lower. Wichita, Kans., reported a slight upward adjustment in gallon jug prices.

In the South Atlantic region, milk for fluid use prices averaged \$6.04 per hundredweight -- unchanged from the previous month but 5 cents below the same month last year. No significant price changes in individual markets were reported.

Milk for fluid use prices in the East South Central area in early September averaged \$5.35 per hundredweight. This was 8 cents above August and 4 cents higher than September 1960. Chattanooga Class I milk prices advanced 26 cents per hundredweight but prices to consumers in this market were unchanged. Class I milk at Knoxville, Tenn., increased 24 cents but consumer prices remained unchanged. Memphis, Tenn., Class I prices showed little change but home and store prices were up about 1 cent per quart. Nashville, Tenn., Class I prices were up 40 cents per hundredweight. Quarts and half-gallons at homes and stores were down about 1 cent but gallons were unchanged. At Montgomery, Alabama, Class I prices were unchanged, but single quarts on routes and at stores rose 1 cent. Store half-gallons were up 3 cents.

West South Central region milk for fluid use averaged \$5.50 per hundredweight in early September -- 1 cent above the preceding month's average, but 1 cent below September 1960. Price changes reported for Little Rock, Ark., were: quarts out-of-stores, 1 cent lower and half-gallons off 3 cents in some stores. At Shreveport, La., quarts delivered to homes were down 2 cents, store quarts were 1 cent lower, and half-gallons out-of-stores rose 4 cents. Store quarts declined 2 cents at Tulsa, Oklahoma, and gallons were 1 cent lower in some stores. These were the only price changes reported in this market. Class I and home and store quart prices were unchanged in Dallas, Tex. Half-gallons and gallons at stores were up $2\frac{1}{2}$ cents per quart.

In the Mountain region, fluid use milk prices to producers averaged \$5.36 per hundredweight in early September. This was 3 cents under August and 10 cents less than September last year. Class I milk at Albuquerque, New Mex., was 50 cents per hundredweight lower than in August. Decreases of 3 to 6 cents for half-gallons out-of-stores were the only changes reported in consumer prices.

In Pacific Coast States, dealers' buying prices for Class I milk averaged \$5.44 per hundredweight in early September. This was an increase of 24 cents from August, but the same as September a year ago. Fresno, Sacramento and San Francisco, Calif., Class I prices were 45 cents per hundredweight higher, with a corresponding 1 cent per quart increase in consumer prices. At Los Angeles, San Diego, and Santa Barbara, Calif., the price increase was limited to 21 cents per hundredweight for Class I milk and $\frac{1}{2}$ cent per quart at homes and stores.

Omaha, Nebr.....	21.6	24	24	24	25 cities average.	24.8	26.6	26.7	26.8

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

*. Revised.

S- From State sources. D.R.- Payment in direct ratio to milkfat. PA- Producers' association prices.
a. Federal Order markets unless otherwise noted. b. Prices paid to all or the major group of producers in the market for milk used for fluid consumption. For Federal markets, Class I prices including negotiated premiums. For minimum Class I price, see Table 1(a) for respective month. d. Prices paid to all or the major group of producers in the market for all pooled milk. Federal market prices include general premiums negotiated by principal producers' associations. Bulk tank (see Table 4) or other special premiums not included unless indicated. e. PMCC Area I price for milk produced in Pennsylvania. f. Individual handler pool. Weighted average of handlers' prices. g. Negotiated prices paid members of principal producers' associations. h. Gallon jug milk \$6.125 D.R. at basic test. j. Association average blend price for the Omaha-Lincoln-Council Bluffs and Platte Valley markets together. k. Average of blend prices paid by all plants in the State. m. Includes special premium. n. \$5.29-Shreveport, \$5.74-Ruston, Monroe & Bastrop. p. Negotiated at basic test: July Class I \$5.42, blend \$4.53 at Oklahoma City; Class I \$5.42, blend \$4.33 at Tulsa; Class I \$5.45, blend \$4.70 at Ardmore, \$4.67 at Lawton. June Class I \$5.45, blend \$4.56 at Red River Valley. q. The following changes have been made for fall production fund: Added: Connecticut 17¢. Subtracted: Columbus 35¢, Dayton-Springfield 30¢, Cincinnati 20¢, Indianapolis 51¢, Sub. St. Louis 10¢, St. Louis 10¢, Ozarks 10¢, Louisville-Lexington 42¢. r. Stark Co. assn. blend \$4.11. s. \$4.12 - Muskegon prod; \$4.17 - Holland prod; temporary adjustment because of assn. pool arrangements. t. Mississippi Milk Commission minimum price. u. Includes 10¢ from earnings.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, JUNE - JULY 1961

Whole milk sales 1 percent below last year

In 66 Federal Order and 6 State marketing areas, preliminary July whole milk sales, at 72.9 million pounds on an average daily basis, were down 4 percent seasonally and were 1 percent below the same month last year. Cumulative daily sales of whole milk through July were 1 percent below the corresponding period last year. The average test of whole milk sold in June was 3.55 percent as compared with 3.56 percent in June a year ago.

June skim milk sales up 9 percent from a year earlier

Skim milk sales in 71 marketing areas (average daily basis) in June were fractionally higher than in May and were 9 percent above June 1960. Cumulative daily sales of skim items for the period January-June were also 9 percent above the similar period of 1960.

Half-and-half sales during June decline 1 percent

Sales of milk and cream mixtures (half-and-half) on an average daily basis during June in 66 marketing areas declined 2 percent from May and were 1 percent below June 1960. For the first six months of 1961, sales in these areas were down 1 percent from the same period a year ago. In the important California, Chicago, and Southern Michigan areas, which together account for about half the mixture sales of the entire market group, sales for the first half of the year declined more rapidly. Chicago sales were off 4 percent and Southern Michigan and California were each 3 percent below the first half of last year.

June cream sales down 2 percent from last year

Average daily sales of fluid cream in 67 marketing areas during June were down 3 percent from May and 2 percent from June of last year. During the first half of 1961, sales of cream were 3 percent below the corresponding period of 1960. Of the six areas which represent about half of the cream sales reported, sales were up 4 percent in California and 2 percent in Connecticut during the first half of 1961. In contrast, however, sales were down 11 percent in Southern Michigan, 8 percent in Philadelphia, 4 percent in Southeastern New England and 3 percent in Chicago.

Total fluid sales in June unchanged from a year earlier

In 6 State and 64 Federal Order markets, total fluid milk sales in June (on an average daily basis) were 4 percent below May and about equal to June a year ago. Cumulatively, sales through June were about equal to those in January-June last year. The average milkfat test of sales of all fluid items in these markets, at 3.68 percent in June compares with 3.71 percent in June 1960.

(Continued on page 27)

a. Quantities include plain and flavored whole milk sold in defined marketing areas (Federal areas adjusted for comparability where necessary); data are revised for earliest date shown, preliminary for others. See page 27 for markets combined. S- Data from State sources. b. Military sales excluded. d. Computed from unrounded data. Average fat test for 65 markets; markets included in totals only if fat test reported for all comparisons.

Compiled from reports of Market Administrators and State milk control agencies.

MARKET COMBINATIONS IN SALES AND RECEIPTS TABLES

The following marketing areas have been combined in the sales and receipts tables of this report: Northern Ohio - North Central, Northeastern and Toledo; other Ohio - Cincinnati, Columbus and Dayton-Springfield; Indiana - Fort Wayne and South Bend-LaPorte-Elkhart; Iowa - Cedar Rapids-Iowa City, Des Moines, North Central and Sioux City; South Dakota - Black Hills and Sioux Falls-Mitchell; Kansas - Neosho Valley, Southwest and Wichita; Tennessee - Chattanooga, Knoxville, Memphis and Nashville; Mississippi - Delta, Central and Gulf; Louisiana - New Orleans and Northern; Texas - Austin-Waco, Corpus Christi, Central West, San Antonio and Panhandle; and Colorado - Colorado Springs-Pueblo and Western.

(Continued from page 20)

Producer receipts 8 percent above July 1960

Receipts from producers in 76 Federal Order and 5 State marketing areas (average daily basis) in July declined 12 percent seasonally, and were 8 percent above July 1960. Producer deliveries to handlers averaged 693 pounds of milk per day in July. This was 12 percent less than in June, but 10 percent above July a year ago. The milkfat test of producer milk averaged 3.60 percent compared with 3.61 percent in July last year.

United States milk production in August 3 percent above last year

Estimated production of milk in August was 10.3 billion pounds -- nearly 3 percent more than in the corresponding month last year, but 1 percent less than the 1950-59 average for the month. The August production declined 7 percent from July, the same seasonal decline as in 1960. Relative to population, August milk production provided 1.81 pounds per person daily, compared with 1.79 pounds in August last year. United States milk production through August of 1961 totaled 86.7 billion pounds, 1 percent more than during the same period of 1960.

4M FLUID MILK AND CREAM REPORT

2
OCTOBER 1961

SUMMARY

Milk for fluid use prices in early October were generally steady to slightly higher at both producer and consumer levels, the Crop Reporting Board reports. In 13 markets, higher dealer prices were reported; a lower price was reported in only 1. Prices of single quarts delivered to homes advanced in 7 markets and declined in 4. Store sold quart prices increased in 13 markets and decreased in 3. Prices of half-gallons were upped in 9 markets and lowered in 6; gallon jug prices were higher in 2 markets but lower in 4. Producer prices in a number of markets are not currently determined but will be reported next month.

Dealers in about 160 markets paid an average of \$5.56 per hundred-weight for Class I milk in early October - an increase of 5 cents from September, but 11 cents below October 1960. Compared with a month ago, average prices were higher in all regions except New England where they were unchanged and the West South Central where the average was 1 cent lower. Largest increases were 15 cents in the Middle Atlantic and 7 cents in the Mountain States. Compared with last year, prices decreased in 7 of the 9 regions. These declines ranged from 2 cents per hundredweight in the West North Central Region to 43 cents in New England. Other large downward differences from last year were 25 cents per hundredweight in the Middle Atlantic and 9 cents per hundredweight in the East South Central Regions. Higher average prices than last year were reported in only 2 regions: 3 cents in the East North Central and 2 cents in the Pacific.

Single quart deliveries of milk to homes in 25 major cities averaged 26.8 cents in early October - unchanged from a month earlier. However, this average was one-tenth of a cent above a year ago at this time and 1.8 cents above the October 1955-59 average. Home delivery prices advanced 1 cent in Philadelphia and $\frac{1}{2}$ -cent at Cleveland, but Kansas City declined 1 cent.

Preliminary August whole milk sales in 66 Federal Order and 6 State market areas, at 74.8 million pounds per day, were 3 percent above July but were 1 percent below August 1960. Average daily sales of skim milk during July in 71 marketing areas were 5 percent below June but 6 percent above July a year ago. In 66 areas, sales of milk and cream mixtures (half-and-half) for July were 6 percent below July 1960. Cream sales in 67 marketing areas declined 9 percent from June and were 4 percent lower than July last year. In 64 Federal Order and 6 State marketing areas, sales of all fluid products on an average daily basis were down 4 percent from June and were 1 percent less than July a year ago. Producer receipts in 76 Federal Order and 5 State marketing areas during August were 4 percent below July but 7 percent above August 1960. Receipts per producer increased 11 percent from August last year.

PRICES IN FLUID MILK MARKETS, OCTOBER 1961

Dealers' buying prices of milk for fluid use in New England in early October averaged \$6.02 per hundredweight. This is unchanged from a month earlier but 43 cents under October 1960. Single quarts at Bellows Falls, Vt., made some adjustment from the previous month with home delivery prices somewhat higher and store sales lower. In Burlington, Vt., prices of all consumer units were 1 cent higher. Producer prices in these markets, however, are not currently determined. Class I prices in Springfield and Worcester, Mass., were the same as September. Gallon jugs in Springfield were as much as 4 cents lower. In Worcester, home delivery prices were unchanged with half-gallons and gallons from 1 to 4 cents per quart lower.

Middle Atlantic Class I milk prices in early October averaged \$6.29 per hundredweight - up 15 cents from a month ago but 25 cents below October 1960. The New York-New Jersey marketing area Class I price was 15 cents per hundredweight above September. Prices to consumers remained generally steady with small adjustments in a few places of the area. Class I milk prices were 40 cents per hundredweight higher at Philadelphia, Pa., and home and store purchases were 1 cent per quart above September.

Fluid use milk prices in East North Central markets in early October averaged \$4.70 per hundredweight - 1 cent higher than September and 3 cents above October last year. Class I prices were down 18 cents per hundredweight from September at Columbus, Ohio, with no change in home or store prices. Class I and most selling prices at Evansville, Ind., were unchanged but some stores sold half-gallons for 2 cents above last month. Peoria, Ill., single quarts at homes were down 1 cent with no change at stores. Half-gallon and gallon container prices were unchanged to about 4 cents per quart lower. Producer prices in this market are not currently reported. At Springfield, Ill., milk for fluid use prices were 10 cents per hundredweight higher with home and store prices generally steady. Beloit, Wis., fluid use prices were 12 cents per hundredweight higher with no change reported in prices to consumers. At Eau Claire, Wis., store quarts were 1 cent higher with prices of other units unchanged. Class I prices in this market are not currently determined. Class I and home delivery prices in Green Bay, Wis., were virtually unchanged. Store quarts were slightly lower in some places and half-gallons were 3 cents above September.

West North Central milk for fluid use prices in early October averaged \$4.42 per hundredweight. This is 3 cents above the previous month but 2 cents below the same month last year. The price war in Duluth, Minn., affecting prices last month, resulted in further adjustment in prices for October. Single quarts were as much as 3 cents lower for home delivery and 2 cents higher at stores. Half-gallons increased 4 cents in some stores. Class I prices in Des Moines, Ia., were 12 cents per hundredweight higher with both home and store prices up $\frac{1}{2}$ cent. Fluid use prices in Ft. Dodge, Ia., advanced 12 cents per hundredweight but prices to consumers were unchanged. Although Class I prices in the greater Kansas City marketing area were unchanged, sales of single quarts to customers on dealers' routes were 1 cent lower. Store quarts were unchanged, however. The price of half-gallons was 2 cents lower and gallon jugs were quoted 3 to 7 cents lower in some stores.

Average prices for milk for fluid usage in South Atlantic areas were \$6.05 per hundredweight in early October. This is 1 cent above last month but 4 cents less than October last year. Class I prices in Wilmington, Del., were up 40 cents per hundredweight and prices to homes and stores were 1 cent per quart above September.

Dealers' buying prices for Class I milk in the East South Central States in early October, at \$5.36 per hundredweight, advanced 1 cent from September but were 9 cents under October last year. Class I prices, home delivery quarts, and store half-gallons at Paducah, Ky., were unchanged from September but quarts out-of-stores were off 1 cent. In Tennessee, Memphis and Nashville Class I prices were unchanged. At Memphis, home delivery prices were the same as last month but store prices rose about 1 cent per quart. At Nashville, an increase of 1 cent in home delivery and store quarts was reported. Prices of other units were unchanged.

In West South Central States, milk for fluid use prices in early October averaged \$5.49 per hundredweight -- lower by 1 cent from early September and by 6 cents from October a year ago. At Tulsa, Okla., Class I prices were unchanged from the previous month. Home delivery quarts and store gallons were also the same price as in September while some increases were noted in store quarts and half-gallons. At Houston, Tex., Class I prices and single quarts at homes and stores were steady. Half-gallon and gallon jug prices were higher at some stores.

In the Mountain region, fluid milk dealers paid an average of \$5.43 per hundredweight for Class I milk in early October. This was an increase of 7 cents from September but 6 cents less than October a year ago. The cessation of hostilities in a two-month price war in Albuquerque, N. Mex., resulted in dealers paying 90 cents per hundredweight more for Class I milk, while milk at homes and stores was selling at about 5 cents per quart above September.

Fluid use milk prices in early October on the Pacific Coast averaged \$5.45 per hundredweight. This was an increase of 1 cent from September and 2 cents above the October 1960 average price. No important price changes were reported in the region.

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

S- From State sources. D.R.- Payment in direct ratio to milkfat. PA- Producers' association prices.

a. Federal Order markets unless otherwise noted. b. Prices paid to all or the major group of producers in the market for milk used for fluid consumption. For Federal markets, Class I prices including negotiated premiums. For minimum Class I price, see Table 1(a) for respective month. d. Prices paid to all or the major group of producers in the market for all pooled milk. Federal market prices include general premiums negotiated by principal producers' associations. Bulk tank (see Table 4) or other special premiums not included unless indicated. e. PMCC Area I price for milk produced in Pennsylvania. f. Individual handler pool. Weighted average of handlers' prices. g. Negotiated prices paid members of principal producers' associations. h. Gallon jug milk \$6.125 D.R. at basic test. j. Association average blend price for the Omaha-Lincoln-Council Bluffs and Platte Valley markets together. k. Average of blend prices paid by all plants in the State. m. Includes special premium. n. \$5.24-Shreveport, \$5.60-Ruston, Monroe & Bastrop. p. Negotiated at basic test: Aug. Class I \$5.45, blend \$4.57 at Oklahoma City; Class I \$5.46, blend \$4.43 at Tulsa; Class I \$5.45, blend \$4.92 at Ardmore, \$4.91 at Lawton. q. The following changes have been made for fall production fund: Added: Connecticut 17¢ and Southwest Kansas 53¢. r. Stark Co. assn. blend \$4.36. s. \$4.40 - Muskegon prod; \$4.45 - Holland prod; temporary adjustment because of assn. pool arrangements. t. Mississippi Milk Commission minimum price. u. Includes 11¢ from earnings. v. July blend \$3.72 at Quad Cities-Dubuque. \$5.20 at Charleston, W. Va. w. Assn. average blend price; Wichita branch 15¢ less than Dodge City.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, JULY - AUGUST 1961

Sales of whole milk in August 1 percent below a year ago

On an average daily basis, preliminary whole milk sales of 74.8 million pounds in 66 Federal Order and 6 State marketing areas in August, were 3 percent above July but 1 percent below the 75.6 million pounds of August 1960. Cumulative whole milk sales through August were 1 percent below the same period last year. The milkfat test of whole milk sold in July 1961 averaged 3.55 percent compared with 3.56 percent a year earlier.

July skim milk sales up 6 percent

Average daily sales of skim milk during July in 71 marketing areas, were 5 percent under a month earlier but 6 percent over July a year ago. Decreased sales compared with a year earlier were shown in only the Niagara Frontier, N. Y., Washington, D. C., Appalachian, Oklahoma Metropolitan, North Texas, Colorado and California area groupings. Sales were higher by a fourth or more in 4 market groups namely: Milwaukee, South Dakota, Central Arizona and Inland Empire. Cumulative sales through July were 9 percent above the corresponding period a year ago.

July sales of milk and cream mixtures 3 percent below 1960

In 60 Federal Order and 6 State marketing areas, sales of milk and cream mixtures (half-and-half) for July were 6 percent below June and 3 percent below July 1960. In the Chicago, Southern Michigan, and California marketing areas, which together represent about one-half of the sales reported in July, sales averaged 6 percent below a year earlier. For the remaining areas of the group, average sales were about the same as July last year. Sales for the months of 1961 through July were 1 percent below a year ago.

Fluid cream sales in July down 4 percent

Cream sales during July (average daily basis) in 67 marketing areas declined 9 percent from June and were 4 percent lower than July last year. Of the 6 most important market groupings shown for fluid cream, only two, Connecticut and California, reported higher sales than July last year. Downward differences ranged from 6 percent in Southeastern New England to 10 percent in each of the total of the 3 Northern Ohio areas and Southern Michigan.

Total fluid sales for July down 1 percent

In 64 Federal Order and 6 State marketing areas, July sales of all fluid products on an average daily basis were down 4 percent from June and were 1 percent less than July a year ago. Cumulative total fluid sales, January through July 1961, were about equal to a year ago. The milkfat test of all fluid sales in these markets in July averaged 3.66 percent compared with 3.68 percent a year earlier.

(Continued on page 27)

MARKET COMBINATIONS IN SALES AND RECEIPTS TABLES

The following marketing areas have been combined in the sales and receipts tables of this report: Northern Ohio - North Central, Northeastern and Toledo; other Ohio - Cincinnati, Columbus and Dayton-Springfield; Indiana - Fort Wayne and South Bend-LaPorte-Elkhart; Iowa - Cedar Rapids-Iowa City, Des Moines, North Central and Sioux City; South Dakota - Black Hills and Sioux Falls-Mitchell; Kansas - Neosho Valley, Southwest and Wichita; Tennessee - Chattanooga, Knoxville, Memphis and Nashville; Mississippi - Delta, Central and Gulf; Louisiana - New Orleans and Northern; Texas - Austin-Waco, Corpus Christi, Central West, San Antonio and Panhandle; and Colorado - Colorado Springs-Pueblo and Western.

(Continued from page 20)

Milk receipts in August 7 percent above last year

Producer receipts in 76 Federal Order and 5 State marketing areas during August (average daily basis) were 4 percent below July but 7 percent above August 1960. Deliveries per producer averaged 666 pounds per day in August - down 4 percent from July but up 11 percent from August last year.

September milk production - up 3 percent from a year earlier

Milk production, estimated at 9.6 billion pounds in September, a record level for the month, totaled 3 percent more than last year and 4 percent above the 1950-59 September average. The seasonal decline from August to September of 6.3 percent was about equal to last year's decline of 6.5 percent at this season. September production was equivalent to 1.75 pounds per capita daily. This was 1 percent more than in that month last year, but 7 percent under the 1950-59 average for September.

FLUID MILK AND CREAM REPORT
NOVEMBER 1961

November 17, 1961

SUMMARY

Fluid milk prices were generally upward in early November although weakness in consumer prices in some markets was reported. Dealers' buying prices were higher than in early October in 24 markets or 1 in about every 7 reporting; prices were lower in 3 markets. Home delivery prices were higher in 18 markets but lower in 3. Out-of-stores, higher prices were reported in 11 markets for quarts, 6 markets for half-gallons, and 8 markets for gallons. Store declines were: quarts, 8 markets; half-gallons, 7 markets; and gallons, 4 markets. Producer prices in a number of markets are not reported but will be shown next month.

Prices of milk for fluid use in about 160 marketing areas in early November averaged \$5.58 per hundredweight. This is 3 cents higher than October but down 15 cents from November a year ago and off 2 cents from the November 1955-59 average. Average prices by regions were higher than October in 4, about the same in 3, and lower in 2. Compared with last November, the average this month was lower in all regions except the Pacific where it advanced 1 cent per hundredweight. The downward differences ranged from 5 cents in the South Atlantic to 27 cents in the Middle Atlantic States. Other large declines were 22 cents in New England; 15 cents in the East South Central, and 14 cents in the Mountain States.

Prices of single quarts delivered to homes in 25 major cities during early November averaged 26.9 cents. This is one-tenth of a cent above October and two-tenths of a cent above November 1960. The price this month is 1.8 cents higher than the 1955-59 average for November. Prices for this unit advanced one-half cent per quart in New York City and 2 cents in Kansas City.

Preliminary sales of whole milk during September (average daily basis) in 66 Federal and 6 State marketing areas increased seasonally by 11 percent and were 1 percent higher than a year earlier. Sales of skim milk in 71 marketing areas during August were greater than July 1961 by 3 percent and August last year by 6 percent. Sales of milk and cream mixtures during August in 66 marketing areas were 3 percent above July but 2 percent below August last year. Fluid cream sales in 67 marketing areas were 1 percent less than July and 3 percent under the level of August 1960. In 70 marketing areas, sales of all fluid items during August were 4 percent more than a month earlier, but 1 percent less than August 1960. Receipts from producers in 76 Federal Order and 5 State marketing areas on an average daily basis during September were 2 percent greater than August and 7 percent over the same month last year. Receipts per producer in September were 10 percent higher than in the corresponding month a year ago.

PRICES IN FLUID MILK MARKETS, NOVEMBER 1961

Dealers' buying prices for Class I milk in New England averaged \$6.23 per hundredweight in early November -- 21 cents above October but 22 cents less than November last year. Class I prices in New Hampshire were up 22 cents per hundredweight. Single quarts sold to homes and out-of-stores were one-half cent higher and half-gallons were up 1 cent per unit in Concord. In Manchester, Nashua and Portsmouth, single quarts delivered to homes were up one-half cent. Store prices in the area were not reported. In the Federal markets of Southern New England, Class I prices were 22 cents per hundredweight higher. Milk sold on home delivery routes and out-of-stores were generally one-half cent per quart higher. At Worcester, Mass., where a price war was reported, milk was as much as a cent per quart below the previous month. Mixed changes in store prices were also reported for Hartford, Conn., with half-gallons as much as 3 cents lower and gallon jugs as much as 3 cents per unit higher.

In the Middle Atlantic States, Class I prices for milk averaged \$6.35 per hundredweight in early November. This is 8 cents above the previous month but 27 cents below the same month in 1960. Producer prices were up 12 cents per hundredweight from October in the New York-New Jersey marketing area. Home and store prices in New York City were reported one-half cent higher at the close of the milk drivers' strike. Consumer prices in other New York portions of the area were generally unchanged except for Syracuse. A 1-cent decline in home delivery single quarts with no change in prices for other units was reported for that market. The Northeastern New Jersey portion of the area reported a one-half cent per quart rise from October. Atlantic City reported a one-half cent increase in home delivery prices with no change in either the Class I or store prices.

East North Central Region prices of milk for fluid use averaged \$4.67 per hundredweight in early November. This price is lower than October by 1 cent and November 1960 by 7 cents. A one-half to 2-cent per quart decrease in store quarts and half-gallons was reported for Akron and Dayton, Ohio. Class I prices in Akron are not currently determined but Dayton prices were unchanged. Gallon containers were priced 4 cents higher in some stores at Evansville, Ind., with no other price changes reported. Class I prices in the Chicago area were 9 cents per hundredweight lower. The only other price change reported in the area was in store quarts and half-gallons at Gary, Ind., which were steady to 1 cent higher. Producer prices are not currently determined at Peoria, Ill., but strong upward adjustments were made in some store prices. Although single quarts in that market were quoted 1 cent lower, advances of 6 to 9 cents were made in half-gallons and 12 to 16 cents in gallon jug prices. Milk for fluid use prices at Springfield, Ill., were 15 cents higher than October. Half-gallons in some stores were 4 cents higher as other consumer units were unchanged. At Grand Rapids, Mich., home delivery single quarts were 1 cent lower; at stores, quarts were as much as 3 cents and half gallons, 4 cents lower than the previous month. Class I prices in this market are not currently determined. Class I prices at Superior, Wis. were 19 cents per hundredweight lower and home delivery prices down 1 to 1½ cents per quart. In some stores, quarts were 2 cents lower and half-gallons 2 to 6 cents below last month.

Prices of fluid use milk in early November in the West North Central States averaged \$4.43 per hundredweight -- 2 cents more than October but 11 cents less than November a year ago. Fluid milk prices in Duluth, Minn., were 19 cents under the previous month while resale prices were generally steady. Class I prices at Minneapolis and St. Paul, Minn., advanced 8 cents per hundredweight.

Generally, consumer prices remained steady but half-gallons in some stores were up a cent. Class I prices in the Greater Kansas City marketing area were unchanged but a price war at consumer levels was reported. In the Missouri portion of the area, home delivery quarts were 2 cents higher but gallon jugs in some stores were 10 cents lower. In the Kansas City, Kans. portion, home delivery quarts were unchanged but gallon jugs in some stores were 4 cents lower. For the entire metropolitan area, half-gallons were 4 cents higher in some establishments. Store prices were severely competitive at Topeka, Kans. where half-gallons sold 16 cents below last month and gallons were 31 cents lower. At Aberdeen, S. D., Class I prices were steady but store quarts were 1 cent lower. Scottsbluff, Nebr., prices of milk for fluid use were unchanged but home and store prices advanced 1 cent per quart. Dealers' buying prices for Class I milk increased 12 cents per hundredweight at Wichita, Kans. Most prices to consumers in this market held steady.

Fluid milk purchase prices in the South Atlantic States averaged \$6.04 per hundredweight in early November. The average this month is unchanged from October but 5 cents down from November last year. Steady milk prices prevailed throughout most of the South Atlantic States. The only sizable change was reported at Greenville, S. C., where gallon prices dropped as much as 14 cents in some stores.

Early November prices for Class I milk in the East South Central Region averaged \$5.36 per hundredweight. Unchanged from October, the price this month is 15 cents below November last year. The Class I price at Paducah, Ky., was steady. A 1-cent increase in store quarts was the only change reported at consumer levels. At Nashville, Tenn., Class I prices were unchanged. An advance of 1 cent was reported in store quarts for the only price change noted in the market. At Montgomery, Ala., fluid use prices were unchanged. Half-gallons out-of-stores were down 1 cent but other consumer units were reported unchanged.

Class I prices in the West South Central Area averaged \$5.50 per hundredweight in early November -- 1 cent over the previous month but 12 cents under a year earlier. Class I prices at Fort Smith, Ark., were up 15 cents per hundredweight. Store prices were unsettled as quarts were quoted 1 cent lower and half-gallons were unchanged. In Shreveport, La., Class I prices were virtually unchanged. A 1-cent increase in store quarts was the only consumer price change reported.

Dealers' buying prices for fluid milk in the Mountain Region averaged \$5.39 per hundredweight -- lower by 4 cents than October and 14 cents under November last year. At Colorado Springs, Colo., fluid use prices declined 10 cents per hundredweight. There was some downward adjustment in half-gallon and jug prices out-of-stores. However, quarts sold on routes and in stores were unchanged from October. Class I prices under the new Federal Order in Denver, Colo. have not as yet been reported. However, a store price war in this market has been reported in which stores sold half-gallons from 6 to 12 cents lower. A price war reduced the Class I price in Albuquerque, N. Mex. by \$1.00 per hundredweight in late October. Single quarts delivered to homes were 4 cents lower; store quarts were down 5 cents and half-gallons were 8 cents lower than last month. Class I prices at Phoenix and Tucson, Ariz., were up 19 cents per hundredweight but no change was reported in prices of store purchases and home deliveries.

Fluid milk dealers on the Pacific Coast in early November paid \$5.45 per hundredweight for Class I milk -- unchanged from October but 1 cent above November a year earlier. No important changes in market prices were reported for this region.

Table 1.--Fluid milk market prices (latest reported to 10th of month)

Omaha, Nebr.....	22.0	24	24	24	25 cities average..	25.1	26.7	26.8	26.9

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

Includes 8¢ from earnings. v. Corrections: Tri-State June \$3.90; July \$3.95; August \$4.66.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, AUGUST - SEPTEMBER 1961

September whole milk sales up 1 percent

Preliminary sales of whole milk (average daily basis) during September in 66 Federal and 6 State marketing areas, at 83.1 million pounds, increased seasonally by 11 percent. Compared with the same month last year, sales in September were up 1 percent from the 82.4 million pounds per day in September last year. Cumulative whole milk sales for 1961, January through September, were 1 percent lower than the same period in 1960. The average milkfat test of whole milk sales in August in 66 of these areas was 3.55 percent compared with 3.56 in August last year.

Skim milk sales in August 6 percent above 1960

On an average daily basis, sales of skim milk in 71 marketing areas during August exceeded July by 3 percent and August last year by 6 percent. In the important California group of sales areas, sales were 1 percent above August 1960. Of the marketing area groupings shown, the following had smaller sales in August than last year: Niagara Frontier, Philadelphia, Kansas City, Ozarks, Wilmington, Clarksburg-Wheeling, Four Tennessee, Central Arkansas, and Oklahoma Metropolitan. Cumulative sales, January through August 1961, topped the same period in 1960 by 8 percent. The average milkfat test of skim milk sales in August was 1.13 percent compared with 1.10 percent in August 1960.

Half-and-half sales 2 percent below August last year

Sales of milk and cream mixtures (half-and-half in most markets) during August, on an average daily basis, in 66 marketing areas were 3 percent above July but 2 percent below August last year. Sales in the 3 largest areas, which together make up over half the sales of the entire group, were lower than August as follows: Chicago, 3 percent; Southern Michigan, 4 percent; and California, 5 percent. For the remaining areas, sales of mixtures totaled about the same as last year. Sales increases from August 1960 in 23 of the other 42 market groupings, just about balanced decreases in 19 market groupings. Cumulative daily sales of mixtures in the entire group of markets for the first eight months in 1961 were 1 percent below the same period a year ago.

August fluid cream sales off 3 percent

Fluid cream sales during August (average daily basis) in 67 marketing areas were 1 percent under July and 3 percent less than August 1960. Cumulative sales for the year through August were down 3 percent from the corresponding period of last year. The average test of fluid cream item sales during August was 22.8 percent compared with 23.2 percent in July and 22.9 percent for August 1960.

(Continued on page 27)

FLUID MILK AND CREAM REPORT
DECEMBER 1961

December 18, 1961

SUMMARY

Fluid milk prices in early December showed mixed changes from November, the Crop Reporting Board reports. Milk for fluid use prices were lower in 24 markets but higher in 6. Home delivery quarts advanced in 7 markets but declined in 3. Store quarts increased in 7 markets and decreased in 7. Half-gallons (store) dropped in 8 markets but rose in 7; gallon jug prices were upped in 4 markets but slipped in 3. In a number of markets, prices at producer levels are not currently determined but will be reported next month.

Prices for fluid use milk averaged \$5.54 per hundredweight in early December - 4 cents below November and 18 cents less than December 1960. The average this month is 3 cents below the December 1955-59 average. Prices were lower than a month earlier in 5 regions but unchanged in 3 and higher in 1. Compared with December last year, averages were down in all regions, the losses ranging from 3 cents per hundredweight in the Pacific States to 33 cents in the West South Central. Other important regional decreases were: 29 cents in the Middle Atlantic; 21 cents in New England; and 19 cents in both the West North Central and East South Central States.

In 25 major cities, early December home delivery prices of milk in single quarts averaged 26.9 cents -- unchanged from last month but one-tenth of a cent higher than a year earlier. Compared with the 1955-59 average, the December average was 1.7 cents higher. One-half cent per quart increases occurred in New York City and Baltimore. A $\frac{1}{2}$ -cent decline was reported for Cleveland and a 1-cent drop was noted in Kansas City quart prices.

Preliminary October sales of whole milk (average daily basis) in 66 Federal Order and 6 State marketing areas were off 3 percent from September and 1 percent from October 1960. Sales of skim milk items in 71 marketing areas during September advanced 5 percent from August and were up 9 percent from September a year ago. September sales of milk and cream mixtures (half-and-half) for 60 Federal Order and 6 State marketing areas gained 4 percent from August but were 1 percent less than in September last year. Fluid cream sales in 61 Federal Order and 6 State marketing areas during September advanced 2 percent from August but were down 1 percent from September 1960. Total fluid product sales in 70 marketing areas, on an average daily basis, rose 11 percent from August and were 1 percent above September 1960. October producer receipts in 76 Federal Order and 5 State marketing areas averaged 3 percent above September and 8 percent over October a year ago. Per producer, milk receipts averaged 699 pounds in October compared with 636 pounds in October 1960.

PRICES IN FLUID MILK MARKETS, DECEMBER 1961

In the New England States, the average price for Class I milk (3.5 percent fat basis) in early December was \$6.24 per hundredweight, unchanged from November but 21 cents less than December 1960. The only important change in prices reported for the region was a 5-cent decrease in the gallon jug price for Hartford.

The average price paid by Middle Atlantic dealers in early December for fluid use milk was \$6.27 per hundredweight. This is 8 cents under November and 29 cents below December last year. Class I prices in the New York-New Jersey marketing area were lessened by 12 cents per hundredweight. Both home and store prices advanced about $\frac{1}{2}$ cent per quart in New York City. The only other important change reported in the marketing area was a 1-cent increase in store quarts in Syracuse.

Early December milk for fluid use prices in the East North Central region averaged \$4.66 per hundredweight. This is unchanged from the November price but 10 cents below December a year ago. At Cincinnati, Ohio, Class I prices were unchanged. Some stores were selling half-gallons 11 cents lower than last month. Evansville, Indiana, Class I and most selling prices were unchanged, but half-gallons were 2 cents lower in some stores. Dealers paid 22 cents less per hundredweight for Class I milk at South Bend, Ind. Home and store prices in this market have not been reported. Producer prices were 21 cents per hundredweight lower at Alton, Ill., where the only change in resale prices was a 1-cent decline in half-gallons in some stores. Peoria, Ill., home delivery prices were unchanged. Store prices advanced 4 cents for single quarts and 1 cent for half-gallons and gallons showed mixed changes. Producer prices in this market are not currently determined. In Springfield, Ill., milk for fluid use and home delivery prices were unchanged. Store prices were somewhat lower for both quarts and half-gallons. At Grand Rapids, Mich., home delivery prices advanced 1 cent per quart but stores reported some price reductions. Producer prices in this market are not currently determined. At Beloit, Wis., Class I prices were down 19 cents per hundredweight, but resale prices were reported unchanged. Most consumer prices at Eau Claire, Wis., were unchanged but store quarts were down 1 cent. Fluid use prices are not currently determined for this market. Dealers' buying prices for Class I milk at Green Bay, Wis., were 18 cents per hundredweight less, but selling prices were unchanged from November. Consumer prices in Madison, Wis., were slightly lower for both half-gallons and gallon jugs. Class I prices in this market are not currently determined. Class I prices were reduced 18 cents per hundredweight at Superior, Wis. The price war in the Duluth - Superior market has become more severe as half-gallons were reported to be selling for as low as 15 to 18 cents per unit early in the month.

Fluid use milk prices in the West North Central States averaged \$4.29 per hundredweight in early December. This average is a decline of 12 cents from November and a drop of 19 cents from a year earlier. Class I prices at Minneapolis and St. Paul. were reduced 19 cents per hundredweight with no change in resale prices. Dealers paid 18 cents per hundredweight more for Class I milk at Winona, Minn., where home delivery and store prices were unchanged. Fluid use milk prices in both Des Moines and Ft. Dodge, Iowa, were 19 cents per hundredweight lower with consumer prices reported unchanged. Sioux City, Iowa, home

delivery single quarts were 1 cent higher and some stores advanced the price of half-gallons 2 cents. Producer prices are not currently determined in this market. Greater Kansas City, Mo., Class I prices were unchanged in early December. Home delivered prices in the Missouri portion of the area were down 1 cent while store quarts were unchanged. Half-gallons sold from 2 cents lower to 2 cents higher and gallon jugs were 6 cents higher as prices returned to normal from the price war reported last month. In Kansas City, Kans., home delivery prices were unchanged but store prices recovered from last month. The Topeka, Kans., part of the area reported half-gallons 16 cents higher and gallon jugs 31 cents more than last month. St. Louis, Mo., dealers' buying prices were reduced 21 cents per hundredweight but no changes were reported in home and store prices. At Springfield, Mo., Class I milk prices were 21 cents per hundredweight below November but some home and store prices were reported somewhat higher. Gallon jug prices in Aberdeen advanced 2 cents but other prices held steady. Wichita, Kans., Class I prices were upped 14 cents per hundredweight as the resale prices were generally the same as last month.

In the South Atlantic Region, Class I prices averaged \$6.03 per hundredweight in early December -- a downward adjustment of 1 cent from November and 6 cents from December a year ago. At Baltimore, Class I prices were steady but consumer prices averaged about $\frac{1}{2}$ cent per quart higher. Savannah, Ga., prices were not reported last month. State milk control for the milk shed had been voted out as of November 1. Class I prices have been reported as unchanged from October levels. Home delivery quarts dropped to 22 cents on November 1 but returned to 28 cents on the 17th of that month.

Dealers' buying prices for Class I milk in the East South Central States averaged \$5.32 per hundredweight in early December, down 3 cents from the preceding month but 19 cents lower than December a year ago. Class I prices were steady in Paducah, Ky. Single quarts at homes and stores also were unchanged, but store half-gallons were 2 cents higher. Louisville and Lexington, Ky., prices were down 16 cents per hundredweight; home and store prices were unchanged.

West South Central milk for fluid use prices averaged \$5.39 per hundredweight in early December. This is 11 cents lower than a month earlier and 33 cents under December last year. At New Orleans, Class I milk prices declined 16 cents per hundredweight from November with no change reported in consumer prices. A 1-cent advance on single quart store purchases at Shreveport, La., was the only change reported in that market. At Oklahoma City and Tulsa Okla., prices of milk for fluid purposes declined 38 and 51 cents per hundredweight, respectively. Consumer prices in these markets were unchanged from November. In Austin and Houston, Tex., Class I prices were virtually unchanged. The only changes reported were for half-gallons sold out-of-stores which were 2 cents lower at Austin and as much as 6 cents lower in Houston.

In the Mountain Region dealers paid an average of \$5.48 per hundredweight for Class I milk in early December, an increase of 9 cents from November but a decrease of 9 cents from December 1960. The Class I price at Albuquerque, New Mex., advanced \$1.00 per hundredweight as the price war reported last month subsided. The price of single quarts delivered to homes moved up 4 cents while store milk increased about 5 cents per quart. The Class I price increased 11 cents per hundredweight in Phoenix and Tucson, Ariz., but home and store prices were reported the same as the previous month.

(Continued on page 28)

Omaha, Nebr.....	22.0	24	24	24	25 cities average.	25.2	26.8	26.9	26.9

a. "Standard grade" is grade commonly sold in each market. Grades vary between markets due to differences in determining factors. The prices shown are the latest reported up to and including the 10th of the month.

b. In markets having a service charge on the first unit at each single delivery location, the charge has been divided between 2 quarts. Since the single quart concept used historically is based on every day delivery, it is assumed that under every other day delivery the charge represents a two-quart purchase.

* Revised.

St. Louis 15¢; Sioux City 37¢; Omaha-Lin.-C.B. 37¢; Platte Valley 39¢; St. Louis 15¢; Ozarks 14¢; Southwest Kansas 54¢; Louisville-Lexington 43¢. x. Weighted average of area pools.

SALES OF MILK AND CREAM AND RECEIPTS FROM PRODUCERS IN CERTAIN
FEDERAL ORDER AND STATE MARKETING AREAS, SEPTEMBER - OCTOBER 1961

Whole milk sales in October down 1 percent from a year earlier

Average daily sales of whole milk (preliminary) during October in 66 Federal Order and 6 State marketing areas at 80.8 million pounds, were 3 percent below September sales and were down 1 percent from October 1960. An important factor in total sales for October was the strike of deliverymen in New York City during the latter part of the month. For the remaining 71 areas of the group, sales were 1.6 percent above September but unchanged from October last year. January through October 1961 cumulative sales for the entire group of markets were 1 percent smaller than in the same period of 1960. The September milkfat test of whole milk sales averaged 3.56 percent for 65 of these markets and was unchanged from the same month last year.

September skim milk sales - 9 percent above last year

Sales of skim milk items in 71 marketing areas on an average daily basis in September advanced 5 percent from August and were up 9 percent from September a year ago. Of the marketing area combinations shown, only Central Arkansas, Oklahoma Metropolitan, and California indicated declines from September 1960. In 10 area groupings, sales were 20 percent or more larger than September last year. Cumulative sales through the first three quarters of 1961 averaged 8 percent above the corresponding period of 1960. The average fat test of sales of skim milk products during September averaged 1.14 percent, compared with 1.11 percent a year earlier.

Sales of milk and cream mixtures 1 percent below a year ago

September sales of milk and cream mixtures (half-and-half in most places) for 60 Federal Order and 6 State marketing areas gained 4 percent from August but were 1 percent less than September last year. In the 3 most important areas, which total more than half of the entire group of markets, sales were lower by: 3 percent in Chicago and 2 percent in both Southern Michigan and California. For the remaining areas, September sales were 1 percent higher than a year earlier. Cumulative sales through September for the 66 marketing areas averaged 1 percent below the corresponding period last year.

Fluid cream sales down 1 percent

Sales of fluid cream in 61 Federal Order and 6 State marketing areas in September, on an average daily basis, advanced 2 percent from August but were down 1 percent from September a year ago. In 20 market groupings sales were higher than in September last year. Two groupings reported sales at about the same level, but in 19 groups sales were lower. Through September, cumulative sales averaged 2 percent below a year earlier.

(Continued on page 27)

a. Quantities include receipts of milk from producers by handlers regulated in the respective marketing areas; data are revised for earliest date shown, preliminary for others. See below for markets combined.
b. Federal totals less receipts from New Jersey producers as reported by the Office of Milk Industry.
c. Data from State sources. d. Data comprise plant receipts of Grade A milk from producers in the State.
e. June through Sept., receipts: Upper Chesapeake Bay, Md., shown as Washington, D. C., and vice-versa.
Compiled from reports of Market Administrators and State milk control agencies.

MARKET COMBINATIONS IN SALES AND RECEIPTS TABLES

The following marketing areas have been combined in the sales and receipts tables of this report: Northern Ohio - North Central, Northeastern and Toledo; other Ohio - Cincinnati, Columbus and Dayton-Springfield; Indiana - Fort Wayne and South Bend-LaPorte-Elkhart; Iowa - Cedar Rapids-Iowa City, Des Moines, North Central and Sioux City; South Dakota - Black Hills and Sioux Falls-Mitchell; Kansas - Neosho Valley, Southwest and Wichita; Tennessee - Chattanooga, Knoxville, Memphis and Nashville; Mississippi - Delta, Central and Gulf; Louisiana - New Orleans and Northern; Texas - Austin-Waco, Corpus Christi, Central West, San Antonio and Panhandle; and Colorado - Colorado Springs-Pueblo and Western.

(Continued from page 20)

Total fluid sales up 1 percent

Total fluid milk sales in 70 of these marketing areas, on an average daily basis, were 11 percent above August and 1 percent above September 1960. In these markets, cumulative sales through September were unchanged from the corresponding period last year. The milkfat test of the total fluid sales averaged 3.64 percent this September, and 3.67 percent in September a year ago.

Receipts from producers increase 8 percent

October producer receipts in 76 Federal Order and 5 State marketing areas averaged 3 percent above September and 8 percent over the same month a year ago. Daily receipts per producer averaged 699 pounds in October compared with 682 pounds in September and 636 pounds in October 1960. The average milkfat test of receipts in October was 3.76 percent or unchanged from the same month last year.

Milk production in U. S. 3 percent above November last year

November milk production in the United States, estimated at 9.2 billion pounds, is 3 percent more than the previous record high for the month set in 1960 and 10 percent above the November 1950-59 average. The trend toward a leveling out in the seasonal pattern of production is revealed by the October to November decline of 4 percent which was about equal to 1960 and compared with the 10-year average drop of 7 percent between these months. Milk production totaled 115 billion pounds for the first 11 months of 1961 -- 1.5 percent more than the same period last year. Production per capita in November averaged 1.67 pounds compared with 1.66 pounds a year earlier.
